

ANTONIO CAPONE
CURRICULUM VITAE
NOVEMBER 2021

PERSONAL INFORMATION

Name **CAPONE, Antonio**
Address Via di Trigatoria 96H, 00128, Roma, Italy
Telephone **+39 347 4185709**
Fax
E-mail **Antonio.capone@roma1.infn.it**

Nationality Italy
Date of birth 30, MAY, 1951

WORK EXPERIENCE

- Since 1/11/2021 Professor at the Physics Department of the SMFN Faculty of the Sapienza University as "High Qualification Expert", teacher for "Particle and Astroparticle Physics"
- Since 1/10/2021 Research Fellow in the Department of Physics at Ariel University, Ariel, 40700, Israel
- 1/11/2001 to 31/10/2021 Full Professor at the Physics Department of University "La Sapienza" in Rome, Italy and Research Associate for Istituto Nazionale Fisica Nucleare, Roma. Retired 31/10/2021.
- Name and address of employer Full Professor, chair of "Mechanics"
- Occupation or position held Teacher of "Mechanics" and "Astroparticle Physics" for the "Corso di Laurea" in Physics and "Astronomy with High energy Neutrinos" for the PHD course in Physics of University "La Sapienza", Roma.
- Teaching activities and responsibilities
 - 2015 Teacher "Astronomy with High energy Neutrinos" for the PHD course in Physics for the University of Salerno
 - 2012-2021 Member of the College of the PhD school in "Physics"
 - 2010-2021 Member of the College of the PhD school in "Astronomy, Astrophysics and Space Science"
 - 2019 PI of the project "Caratterizzazione delle sorgenti astrofisiche impulsive di fotoni di alta energia (GRB, AGN, Magnetars, . . .) e di onde gravitazionali: stima dei flussi di neutrini attesi da tali sorgenti." Funded (37.7 k€) by the University "La Sapienza."
 - 2018 PI of the project "Study of transient astrophysical sources of neutrinos and low and high energy photons with a multimessenger approach.." Funded (4.0 k€) by the University "La Sapienza."
 - 2016 PI of the project " Caratterizzazione e test di una sorgente acustica parametrica per la calibrazione di una rete di sensori acustici sottomarini" funded (13k€) by the University "La Sapienza."
 - 2016 PI of the project "Approccio multi-messaggero alla ricerca di sorgenti astrofisiche di Raggi Cosmici di altissima energia" as part of a collaboration between the University La Sapienza and the Sao Paulo University in Brasil, funded (5k€) by the University "La Sapienza."
 - 2015 PI of the project "Development of a GPU-based system for fast analysis of real

Research activities and responsibilities

time data streams" funded (11k€) by the University "La Sapienza.

2012-2015 national coordinator of the Italian INFN group "KM3" that includes the participation to the ANTARES experiment, to the KM3NeT collaboration and the continuation on NEMO activities for the construction of the Undersea Cherenkov Telescope for High Energy astrophysical Neutrinos. In the period 2001-2012 local coordinator of the ANTARES and of the NEMO Roma-group. During December 2011, in the framework of the "Piano Operativo Nazionale Ricerca e Competitivita' 2007-2013" part of the budget (about 21 M€) for the construction of the KM3NeT neutrino telescope was provided allowing to enter in the construction phase.

2018 Organizer and Editor of the 7th "Roma International Conference on Astroparticle Physics", (RICAP18 4th – 7th September 2018, RomaTRE University, Roma).

2016 Organizer and Editor of the 6th "Roma International Conference on Astroparticle Physics", (RICAP16, 21nd – 24th June 20136, Villa Tuscolana, Frascati).

2015 Chairman organizer and Editor of the 7th "Very Large Volume Neutrino Telescope 2015" Workshop, (VLVnT15, 14th – 16th Sept. 2015).

2014 Organizer and Editor of the 5th "Roma International Conference on Astroparticle Physics", (RICAP14, 30/09 – 3/10, 2013, Noto, SR, Italy).

2013 Chairman organizer and Editor of the 4th "Roma International Conference on Astroparticle Physics", (RICAP13, 22nd – 24th May 2013).

2011 PI of the project "Sviluppo di una sorgente acustica compatta, basata su ceramiche piezoelettriche, per la calibrazione di una rete di sensori acustici sottomarini" funded (12k€) by the University "La Sapienza.

2008-2012 Coordinator of the Work Packages "Industrial production for deep sea components" for the KM3NeT "Preparatory Phase" project funded by EU in the framework of 7th Frame Program.

2006-2009 Coordinator of the Work Packages "Shore and deep-sea infrastructure" for the KM3NeT "Design Study" project funded by EU in the framework of 6th Frame Program.

2008: Chairman, organizer and Editor of the 3rd International Workshop on the "Acoustic and Radio EeV Neutrino detection Activities", (ARENA-2008, in the period June 25th-27th, 2008).

2007 Promoter, Chairman, organizer and Editor of the "1st Roma International Conference on Astroparticle Physics", (RICAP07, 20th -22nd June 2007).

2006 Founder, and since then President, of the Cultural "Associazione Romana per le Astro Particelle", ARAP, (funded with the collaboration of Prof. Mario De Vincenzi and Dr. Aldo Morselli).

2003 Principal Investigator and responsible for the project "Technologies development for the detection of Astrophysical Neutrinos in undersea Telescopes" funded by the Italian Minister of University and Research (PRIN-2003)

2001-2020 – INFN local coordinator of the group NEMO and ANTARES for the search of High Energy Astrophysical Neutrinos.

1994 - 1995

- Name and address of employer

- Occupation or position held

- Main activities and responsibilities

- From Nov. 1991 to Nov. 2001

- Name and address of employer

Employed as "Scientific Associate" at the European Center for Nuclear Research (CERN) being "on leave of absence" from University "La Sapienza" in Rome, Italy. European Center for Nuclear Research (CERN)

Researcher

Neutrino physics with the CHARM-II detector exposed at the SPS 400 GeV for the study of neutrino oscillation: coordinator of several data analysis groups.

Associate Professor, on leave of absence in the period 1994-95, Research Associate for Istituto Nazionale Fisica Nucleare, Roma

Physics Department of University "La Sapienza" in Rome, Italy

<ul style="list-style-type: none"> • Occupation or position held • Teaching activities and responsibilities Research activities and responsibilities 	<p>Professor of "Physics" for the "Corso di Laurea" in "Informatics" (1991/1993)</p> <p>Teaching of "Physics" for the "Corso di Laurea" in "Informatics" (1991/1993) and "Experiments of Physics III" for the "Corso di Laurea" in Physics (1994/2001)</p> <p>1998-2001: promoter and INFN-Roma local coordinator of the project NESTOR for the realization of a submarine Cherenkov detector for High Energy Astrophysical Neutrinos. • **Research activities and responsibilities**

Multigamma experiment at the Intersecting Storage Ring (CERN) and participation to the neutrino CHARM experiment (CERN).

1975 - 1976

• **Name and address of employer**

Fellowship as researcher.

• **Occupation or position held**

Temporary contract with Istituto Nazionale Fisica Nucleare (INFN), Roma, Italy.

Teaching activities

Researcher

• **Research activities and responsibilities**

Classes of exercises for "General Physics"

Study of the production of pions in the interaction of an electron beam on a proton target at the INFN-Frascati electron Synchrotron; Multigamma experiment at the Intersecting Storage Ring (CERN)

1974 - 1975

• **Name and address of employer**

High School Professor, Research Associate for Istituto Nazionale Fisica Nucleare, Roma

• **Occupation or position held**

Istituto Tecnico Industriale Statale "Guglielmo Marconi", Civitavecchia

Teaching "Electronics" and "Electrotechnics"

EDUCATION AND TRAINING

1969 - 1974

• **Name and type of organisation providing education and training**

"Laurea" in Physics

• **Principal subjects/occupational skills covered**

Institute of Physics, "La Sapienza" in Rome, Italy, Faculty of Mathematical, Physical and Natural Sciences of the University "La Sapienza", Roma, Italy

• **Title of qualification awarded**

General Physics, High energy particle physics

• **Level in national classification**

"Laurea" in Physics

110/110 Magna cum Laude

SOCIAL SKILLS AND COMPETENCES

RESEARCH GROUP LEADER SINCE 1994 (PROJECTS NEMO, ANTARES, KM3NET, KM3)

ORGANISATIONAL SKILLS AND COMPETENCES

2018-2020 Member of the Board for "Abilitazione Scientifica Nazionale" ASN for "Settore Concorsuale 02/A1.

2014-2019 Member of the "Giunta" of the Physics Depart. of University "La Sapienza"

2012-2015 INFN national responsible of the Km3 group for the construction of the Undersea Cherenkov Telescope for High Energy astrophysical Neutrinos.

TECHNICAL SKILLS
AND COMPETENCES

2016 Organizer and Editor of the 6th "Roma International Conference on Astroparticle Physics", (RICAP16, 21nd – 24th June 20136, Villa Tuscolana, Frascati).

2015 Chairman organizer and Editor of the 7th "Very Large Volume Neutrino Telescope 2015" Workshop, (VLVnT15, 14th – 16th Sept. 2015).

2014 Organizer and Editor of the 5th "Roma International Conference on Astroparticle Physics", (RICAP14, 30/09 – 3/10, 2013, Noto, SR, Italy). **2013** Chairman, organizer and editor of the 4th "Roma International Conference on Astroparticle Physics", RICAP-07, Roma, 22nd – 24th May, 2013.

2008-2012 coordinator of the Work Packages "Industrial production for deep sea components" for the KM3NeT "Preparatory Phase" project funded by EU in the framework of 7th Frame Program.

2008 Chairman, organizer and editor of the 3rd Roma International Workshop on the "Acoustic and Radio EeV Neutrino Detection Activities", ARENA-08, Roma, 25th – 27th June, 2008.

2007 Promoter, Chairman organizer and editor of the 1st "Roma International Conference on Astroparticle Physics", RICAP-07, Roma, 20th – 22nd June, 2007.

2006-2009 coordinator of the Work Packages "Shore and deep-sea infrastructure" for the KM3NeT "Design Study" project funded by EU in the 6th Frame Program.

2006 Since 2006 President of the Cultural association: "Associazione Romana per le Astro Particelle" funded by Prof. Antonio Capone, Prof. Mario De Vincenzi and Dr. Aldo Morselli.

2005 Member of the Organizing Committee and editor of the 2nd International Workshop on the "Very Large Volume Neutrino Telescopes", VLVnT2, Catania, 8th – 11th November, 2005.

2003 Principal Investigator and responsible for the project "Technologies development for the detection of Astrophysical Neutrinos in undersea Telescopes" funded by the Italian Minister of University and Research (PRIN-2003).

2002-2005 Member of the International Advisory Committee and organizer of the Parallel Session on "Astroparticle Experiments" for the "Astroparticle, Particle and Space Physics, Detectors and Medical Physics Applications".

1994-1998 As Principal Investigator for INFN I have coordinated the work of the Italian component of the NESTOR experiment .

Good knowledge of scientific computer languages, fortran
