Acknowledgements

The HST Programme Committee would like to thank:

- *CERN HR Department for providing the use of the Training Centre Amphitheatre and PC rooms for the duration of the programme*
- *the University of Michigan, Ann Arbor, for the loan of the technical equipment used for recording and web publishing the HST lectures and for providing the manpower to coordinate and support this activity*

The Latin American participants were sponsored by the High Energy Physics LatinAmerican-European Network (HELEN) programme coordinated by Prof. Luciano Maiani, Università “La Sapienza”, Italy. Local CERN support was provided by Veronica Riquer Ramirez, Istituto Nazionale di Fisica Nucleare Sezione di Roma, Angel Uranga CERN/PH and the PH Department administration.

The participants from the USA were supported by a grant from the National Science Foundation administered by the University of Michigan. All the participants were associated with and selected by the FERMILAB Quarknet Programme. The HST2006 programme team gratefully acknowledges the contribution of -

*Jeremy Herr, Jean Krisch, Homer Neal, University of Michigan, Ann Arbor
Marge Bardeen and Tom Jordan, Fermi National Accelerator Lab
Beth Marchant, University of Notre Dame*
