

LIST OF FORMER VESF FELLOWSHIP HOLDERS

Name of the fellow	Title of the research activity	Affiliation	Duration of the activity	Supervisor
Deborah Aguilera	Probing general relativity and nuclear physics with GW from newly born neutron stars	Universidad de Alicante – Depto. de Fisica Aplicada (Spain)	01/04/2006-Nov 2007	Jose' A. Pons
Andrea Passamonti	Non-linear oscillations of compact stars and GW, synergy between the non-linear perturbation methods and numerical relativity	Aristotle Univ. of Thessaloniki -Gr. Of Gravitational Physics (Greece)	Dec. 2005-Nov. 2007	K. Kokkotas
K.G. Arun	Post-newtonian theoretical study of compact binary sources templates	LAL Orsay and IAP Paris (France)	29/01/2007-31/12/2008	F.Cavalier and L. Blanchet
Alessandra Corsi	GW by Gamma-Ray bursts	IASF – Roma (Italy)	01/04/2006-April 2008	L. Piro
Stefania Marassi	Study of the r-mode instability of rotating stars	Univ. Roma La Sapienza (Italy)	01/03/2006 - 2008	V.Ferrari
Frank Loeffler	Numerical calculation of the GW emission from mixed binary systems	SISSA Trieste (Italy)	2005-2007	L. Rezzolla
Virginia Re'	GW search with the operating network of interferometers and resonant detectors	Univ. di Trento – Dip. di Fisica (Italy)	15/03/2006 -	Giovanni A. Prodi
Reliable information on fellow missing	Stellar evolution of progenitor systems and Analysis of local Galactic sources for stochastic background	Univ. di Pisa – Dip. di Fisica	2007-2008	S. Shore
Pedro Montero	Numerical General Relativistic magnetohydrodynamics simulation of accretion discs as GW sources	Universitat de Valencia	Dec. 2005 – Dec. 2007	J. A. Font
Olivier Rabaste	Network detection methods of GW	APC Paris (France)	Jan. 2007 – Nov. 2008	E. Chassande-Mottin
