

CURRICULUM VITAE
GIOVANNI GALLAVOTTI

Università degli Studi di Roma, La Sapienza
Dipartimento di Fisica
Piazzale Moro 5
00185 ROMA, ITALIA
Department of Mathematics
Rutgers University
New Brunswick, NJ 08903
(732) 445-5705

Roma 7 August 2018 (20pages)

- 0) Birthdate 29–December–1941, Napoli
- 1) High School diploma, Liceo Classico, Roma, 23/7/1959.
- 2) Laurea cum laude in Physics, Università di Roma, 1963.
- 3) Diploma cum laude of the Scuola di perfezionamento in Fisica, Università di Firenze, 1965.
- 4) Professor without tenure of “Fisica I” at the Engineering School, Università di Firenze, 1964/65.
- 5) Professor without tenure of “Fisica dei neutroni” at the Facoltà di Scienze, Università di Firenze, 1965/66.
- 6) Research Associate in Mathematical Physics at the Institut des Hautes Etudes Scientifiques (I.H.E.S.) Paris, 1966/67 – 1967/68.
- 7) Research Associate at the Mathematics Department of the Rockefeller University, New York, 1968/69 – 1969/70.
- 8) Libero docente (professor without chair) of “Istituzioni di Fisica Teorica,” December 1969.
- 9) Assistant Professor with tenure of “Analisi Matematica” at the Mathematics Department of the Università di Roma, 1970/71 – 1971/72.
- 10) Associate Professor with tenure of “Istituzioni di Analisi Superiore” at the Mathematics Department of the Università di Roma, 1970/71 – 1971/72.
- 11) Professor of “Meccanica Razionale,” November 1971 (this means that I could be legally given a tenured full professorship in Mechanics or related topics).
- 12) Professor with tenure of “Metodi Matematici della Fisica” at the Physics Department of the Università di Napoli, 1972/73 – 1974/75.
- 13) Visiting Professor at the Theoretical Physics Department of the University of Nijmegen, Netherlands, 1973/74.
- 14) Editor for Equilibrium Statistical Mechanics for “Communications in Mathematical Physics,” October 1973 to October 1976.
- 15) Offer of a tenured full professorship in “Probability Theory” at the ETH of Zürich, Switzerland, 1974 (not accepted)
- 16) Transferred to the chair of “Meccanica Razionale” of the Istituto di Matematica of the Università di Roma, 1–November–1975.

- 17) Member of the Editorial Board of the Encyclopedia of Mathematics of Addison-Wesley, since December 1975. XYZ
- 18) Member of the Editorial Board of the “Journal of Statistical Physics,” October 1976 to 1978.
- 19) Transferred to the chair of “Istituzioni di Fisica Matematica” of the Istituto Matematico of the Università di Roma, 1–November–1980.
- 20) “Lefschetz professor” at the Mathematics Department of Princeton University, 1982
- 21) Transferred to the chair of “Meccanica Razionale” of the Mathematics Department of the II^a Università di Roma, 1–November–1983.
- 22) Offer of a tenured full professorship by Rutgers University, 1983.
- 23) Member of the Institute for Advanced Study of Princeton 1984/85.
- 24) Editor of the Section “Meccanica Statistica” of the “Dizionario di Scienze Fisiche” of the Enciclopedia Italiana.
- 25) Member of the Editorial Advisory Board of rivista “Acta Applicandae Mathematicae,” since 1984; of “Computational Mechanics,” since 1985; of the board of Editors of “Il Nuovo Cimento B,” since 1985, and of “Meccanica” since 1987; of “Forum Mathematicum” since 1987.
- 26) Member of the Advisory Board of the series “Studies in Statistical Mechanics,” printed by North Holland, directed by J. Lebowitz, since 1985.
- 27) Director of the International Meeting “Problemi Matematici dalla Meccanica dei Fluidi,” Accademia dei Lincei, IBM-Italia, CNR in Roma (at the Academy), 6–12 June 1986.
- 28) Invited talk at the International Congress of mathematicians, Berkeley, August 1986.
- 29) Director of the International School “Non linear Evolution and Chaotic Phenomena,” City of Noto, NATO-ASI, Università di Catania, IBM-Italia e CNR (Noto), 8–19 June 1987.
- 30) Professor at the “Centro Interdisciplinare Linceo” “Beniamino Segre,” Academy, Roma, for the years 1986/1989
- 31) Transferred to the Chair of “Meccanica dei Fluidi” of the Physics Department of the Università di Roma, La Sapienza, 1988.
- 32) Founding member and member of the Board of “Chief editors” of “Journal of Nonlinear Science,” since 1988.
- 33) Invited to deliver a plenary talk at the “SIAM conference on applications of dynamical systems”, October 15- 19, 1992, Snowbird, Utah.
- 35) Codirector of I^o Celestial Mechanics National Meeting Aquila, maggio 1993.
- 36) Chair of “Meccanica Superiore”, november 1994.
- 37) Correspondent Member of the Accademia Nazionale dei Lincei, July 1994.
- 38) Nov. 1995, prize for the “best article on Annales de l’ Institut Poincaré, Theoretical Physics section for the year 1994” to the paper n. 108 of the publication list
- 39) Prize “Presidente della Repubblica”, at the Natural Sciences Class of the Accademia Nazionale dei Lincei, 1997
- 40) Plenary address at the $M \cap \Phi$ meeting, Brisbane, July 1997
- 41) Plenary address at the XX StatPhys meeting, Paris, July 1998.
- 42) Plenary address at the ICM98 meeting, Berlin, August 1998.
- 43) Member of the Scientific Board of I.H.E.S. (Paris), 1998–2003
- 44) Member of the editorial board of *Journal des Mathématiques pures et appliquées* of Paris, 1998– .

- 45) Director of the meeting “Separatrix splitting and Arnold diffusion”, I.H.E.S. (Parigi), 5–18 September 1999.
- 46) Co-rganizator of *Workshop in nonequilibrium statistical mechanics*, february–march 1999 e 1-19 february 2001, ESI, Wien.
- 47) Member of the Scientific Committee for the organization of the Meeting $M \cap \Phi$, London–2000
- 48) Member of the Scientific Committee for the organization of the Meeting StatPhys, Mexico–2001
- 49) Member of the editorial board of *Communications in Mathematical Physics*, 2000–
- 50) Membro del Comitato Scientifico dell’ ESI di Vienna, 2000-2008
- 51) Member of the Scientific Committee of the “Institut Henri Poincaré”, Paris, 2000–2005
- 52) Corresponding member of *Istituto di Studi Romani*, 2002.
- 53) Member of the Committee of the *IAMP*, Internatinal association for Mathematical Physics
- 54) Member of the editorial board of *Journal of Mathematical Physics*, 2004.
- 55) President of *IAMP*, International association for Mathematical Physics, 2006
- 56) Member of he organizing committee of the ”Boltzmann’s Legacy” International Symposium, ESI, Vienna, June 7-9, 2006.
- 57) Plenary talk at the 15-th ”Conferencia Nacional de Fisica” of the Portuguese Physical Society, Aveiro, 4-7 Sept. 2006.
- 58) Receipient of the *Boltzmann medal* for 2007 by IUPAP (Intenational Union of Pure and Applied Physics).
- 59) Member of the scientific committee of C.I.M.E., 1/1/2008
- 60) Elected *National Member* at the Accademia dei Lincei, 17 June 2011.
- 61) Retired 1/11/2012.
- 62) Proposed as “Emeritus” by the Faculty of Sciences, 29/10/2013. Nomination subject to approval by the Rector and by the Minister of education.
- 63) “Emeritus” at the Faculty of Sciences, Università di Roma, 23 febbraio 2015.
- 64) Non resident member of *Istituto Lombardo Accademia di Scienze e Lettere*, 1/10/2014.
- 65) Award of the *Henri Poincaré prize* 23/7/2018, Montreal, at ICMP2018.

Participations and invitations to various Congresses and Schools can be desumed from the list of publications.

Books

- (1) *Meccanica Elementare*, ed. P. Boringhieri, Torino, p. 1–501, 1980.
- (2) *Aspetti della Teoria ergodica qualitativa e statistica del moto*, Quaderno U.M.I., no. 21, ed. Pitagora, Bologna, 1982, p. 1–300.
- (3) *The Elements of Mechanics*, Springer–Verlag, p.1–575, New York, 1983. Traduzione della I edizione italiana di "Meccanica Elementare", riveduta e ampliata.
- (4) *Meccanica Elementare*, seconda edizione riveduta, ed. P. Boringhieri, Torino, 1986, p. 1–536.
- (5) *Renormalization group*, p. 1–143, Princeton University Press, 1995, (G. Benfatto).
- (6) *Trattatello di Meccanica Statistica*, "Quaderni del CNR-GNFM", vol. **50**, p. 1–350, Firenze, 1995.
- (7) *Ipotesi per una introduzione alla Meccanica dei Fluidi*, "Quaderni del CNR-GNFM", vol. **52**, p. 1–428, Firenze, 1997.
- (8) *Statistical Mechanics. A short treatise*, p. 1–345, Springer–Verlag, Berlin, 1999.
- (9) *Foundations of Fluid Mechanics*, Springer–Verlag, p.1–513, 2002, 2005, ISBN: 978-3-540-41415-5.
- (10) *Aspects of the ergodic, qualitative and statistical theory of motion*, Springer–Verlag, p.1–434, 2004, (F.Bonetto, G.Gentile).
- (11) *Foundations of Fluid Mechanics*, 2a ristampa, corretta, Springer–Verlag, p. 1–519, 2005 (ISSN 0172-5998, ISBN 3-540-41415-0).
- (12) *The Elements of Mechanics*, Ipparco Editore, p.1–587, Roma, 2008. II Edizione Inglese, "Meccanica Elementare", riveduta e ampliata.

Academies

- Professor at "Centro Interdisciplinare Linceo *Beniamino Segre*, Accademia Lincei, 86/89
- Accademia Nazionale dei Lincei (socio Corrispondente: 1994)
- Istituto nazionale di Studi Romani
- Academia Europaea
- Accademia Nazionale dei Lincei (socio Nazionale: 2011)

Awards

- *Lefschetz professor*, Mathematics Dept., Princeton U., 1982
- *Prize Presidente della Repubblica*, 1997
- *Boltzmann Medal*, IUPAP, 2007
- *Henri Poincaré Prize*, IAMP, 2018

Courses and conferences

- International Congress of mathematicians, Berkeley, ICM-1986 (parallel session speaker)
- Plenary speaker at "SIAM conf. on applic. of dynamical systems", 1992, Snowbird, Utah
- Plenary speaker at $M \cap \Phi$, IAMP, sBrisbane, 1997
- Plenary speaker at XXStatPhys, Paris, 1998.
- Plenary speaker at ICM-1998, Berlin, 1998.
- Plenary speaker at 15-th "Conferencia Nacional de Fisica", Portuguese Phys. Soc., 2006.
- Plenary speaker at XXIIIStatPhys, Genova, 2007.
- Plenary speaker at ICMP2018, Montreal, 2018.

LIST OF PUBLICATIONS OF GIOVANNI GALLAVOTTI, coauthors in ()

- (1) *Statistical Mechanics of lattice systems*, Communications in Mathematical Physics: **5**, 317–323, 1967, (S.Miracle–Solè).
- (2) *Correlation functions of a lattice system*, Communications in Mathematical Physics: **7**, 274–288, 1967, (S.Miracle–Solè).
- (3) *Analyticity properties of a lattice gas*, Physics letters: **25A**, 493–494, 1967, (S.Miracle–Solè, D.Robinson).
- (4) *A variational principle for equilibrium of hard sphere systems*, Annales de l’Institut Henry Poincarè: **8**, 287–299, 1968, (S.Miracle–Solè).
- (5) *On the mechanical equilibrium equations*, Il Nuovo Cimento, **57B**, 208–211, 1968.
- (6) *Analyticity properties of the anisotropic Heisenberg model*, Communications in Mathematical Physics, **10**, 311–324, 1968, (S.Miracle–Solè, D.Robinson).
- (7) *Absence of phase transitions in one dimensional systems with hard core*, Physics letters, **26A**, 350–351, 1968, (S.Miracle–Solè, D.Ruelle).
- (8) *On the cluster properties above the critical temperature in lattice gases*, Communications in Mathematical Physics, **12**, 269–274, 1969, (Miracle–Solè).
- (9) *Divergences and approach to equilibrium in the Lorentz and the Wind–tree–models*, Physical Review, **185**, 308–322, 1969.
- (10) *High temperature properties of random spin systems*, Journal of Mathematical Physics: **11**, 141–146, 1970.
- (11) *Absence of phase transitions in hard core one–dimensional systems with long range interactions*, Journal of Mathematical Physics: **11**, 147–154, 1970, (S.Miracle–Solè).
- (12) *Thermodynamic limit of time–dependent correlation functions for one–dimensional systems*, Journal of Mathematical Physics: **11**, 2898–2905, 1970, (O. Lanford, J.Lebowitz).
- (13) *One dimensional lattice gases with rapidly decreasing interactions*, Archive for Rational Mechanics and Analysis: **37**, 181–191, 1970, (T.F. Lin).
- (14) *A proof of the second Griffiths’ inequality for the X–Y model*, Studies in Applied Mathematics: **50**, 89–92, 1971.
- (15) *Thermalization of a magnetic impurity in the isotropic X–Y model*, Physical Review letters: **25**, 1449–1450, 1970, (D.Abraham, E.Barouch, A.Martin–Löf).
- (16) *Time evolution problems in Classical Statistical Mechanics and the Wind–tree–model*, in ”Cargese Lectures in Physics”, vol. IV, ed. D.Kastler, Gordon Breach, Paris, 1970, pp.257–275.
- (17) *Boundary conditions for the heat equation*, ed. Ateneo, Roma, 1970; also printed in a different form in Nagoya Journal of Mathematics (see 30 below), pp: 1–48, (H.P.Mc Kean).
- (18) *Statistical Mechanics of the electron–phonon system*, Lettere al Nuovo Cimento: **4**, 1293–1297, 1970, (J.Ginibre, G.Velo).
- (19) *Phase transitions in binary lattice gases*, Journal of Mathematical Physics: **12**, 1129–1133, 1971, (J.Lebowitz).
- (20) *Dynamics of a local perturbation in the X–Y model (I)*, Studies in Applied Mathematics: **50**, 121–131, 1971, (D.Abraham, E.Barouch, A.Martin–Löf).
- (21) *Surface tension in the Ising model*, Lettere al Nuovo Cimento, **2**, 143–146, 1971, (D. Abraham, A. Martin–Löf).

- (22) *Boundary conditions and Correlation Functions in the ν -dimensional Ising model at low temperature*, Communications in Mathematical Physics, **23**, 275–284, 1971.
- (23) *Surface tension in the Ising Model*, Communications in Mathematical Physics: **25**, 87–126, 1972, (A.Martin-Löf).
- (24) *Equilibrium states of the Ising Model in the Two-phases Region*, Physical Review, **5B**, 2555–2559, 1972, (S.Miracle-Solè).
- (25) *Dynamics of a local perturbation in the X-Y model (II)*, Studies in Applied Mathematics: **51**, 211–218, 1972, (D. Abraham, E.Barouch, A.Martin-Löf).
- (26) *Alcuni risultati rigorosi in Meccanica Statistica e loro applicazioni alla fenomenologia delle transizioni di fase*, invited talk at the meeting of the italian Physical Society, Internal report of the Physics Department of the University of Rome, Nota interna n.**347**, 1971, pp. 1–16.
- (27) *Instabilities and Phase Transitions in the Ising Model*, La Rivista del Nuovo Cimento: **2**, 133–169, 1972.
- (28) *Dense sums*, Annales de l’Institut Henry Poincarè: **17**, 195–219, 1972, (G.Fano).
- (29) *The Phase separation line in the two—dimensional Ising model and its relationships with the non-free random walk problem*, Lettere al Nuovo Cimento, **4**, 699–703, 1972, (H.Van Beyeren).
- (30) *Boundary conditions for the heat equation in a several dimensional region*, Nagoya Mathematical Journal: **47**, 1–14, 1972, (H.P.Mc Kean).
- (31) *Phase separation line in the two—dimensional Ising model*, Communications in Mathematical Physics, **27**, 103–136, 1972.
- (32) *Some problems connectes with the phase separation in the Ising model at low temperature*, in Lecture notes in Physics, vol. **20**, ed. A.Lenard, Springer Verlag, Berlin, 1973, pp.162–204. (A.,Martin-Löf, S.Miracle-Solè).
- (33) *On the Onsager–Yang value of the spontaneous magnetization*, Communications in Mathematical Physics: **30**, 45–54, 1973, (G.Benettin, G.Jona-Lasinio, A.Stella).
- (34) *Exsistence and uniqueness of equilibrium states for some spin and continoum systems*, Communications in Mathematical Physics, **32**, 153–165, 1973, (M. Cassandro, J. Lebowitz, E. Monroe).
- (35) *Ising model and Bernoulli shifts*, Communications in Mathematical Physics, **32**, 183–190, 1973.
- (36) *Some remarks on Isin spin systems*, Physica, **70**, 219–221, 1973, (J.Lebowitz).
- (37) *Surface tension in the two—dimensional Ising model*, Physica, **65**, 73–88, 1973, (D.Abraham, A.Martin-Löf).
- (38) *Modern theory of the billiards. An introduction*, in Global Analysis and its applications, vol. II, ed. P. De la Harpe, International Atomic Energy Commission, Vienna, 1974, p. 193–202.
- (39) *Markov processes, Bernoulli schemes and Ising model*, Communications in Mathematical Physics: **33**, 259–282, 1973, (F.Diliberto, L.Russo).
- (40) *On the calculation of an integral*, Journal of Mathematical Analysis and applications, **44**, 661–675, 1973, (C.Marchioro).
- (41) *Rigorous theory of the Boltzmann equation in the Lorentz model*, Nota interna n. 358, Physics Department, Università di Roma, 10 febbraio 1972, pp.1–9, Per il libro "Fisica statistica" ed. E. Velarde, Madrid (non pubblicato). Archiviato nell’ archivio elettronico: mp_arc@math.utexas.edu, #93-304.
- (42) *Billiards and Bernoulli schemes*, Communications in Mathematical Physics: **38**, 83–101, 1974, (D.Ornstein).

- (43) *Block spins interactions in the Ising model*, Communications in Mathematical Physics, **36**, 171–184, 1974, (H.Knops).
- (44) *The Lavoisier law and the critical point*, Il Nuovo Cimento, **25B**, 691–705, 1975. (M. Cas-sandro).
- (45) *Block spin distributions for short range attractive Ising models*, Il Nuovo Cimento, **25B**, 425–441, 1975, (A.Martin–Löf).
- (46) *Conservation laws in the hierarchical model*, Physica, **78**, 541–543, 1974. (H.Knops, H.Van Beyeren).
- (47) *Approximate symmetries and their spontaneous breakdown*, Annales de l’Institut Henri Poin-carè: **22**, 159–172, 1975, (R. Esposito).
- (48) *On the classical KMS boundary condition*, Il Nuovo Cimento, **28B**, 274–286, 1975, (E. Ver-boven).
- (49) *Limit theorems for multidimensional Markov processes*, Communications in Mathematical Physics: **41**, 301–307, 1975, (G.Jona–Lasinio).
- (50) *The hierarchical model and the renormalization group*, La Rivista del Nuovo Cimento: **5**, 341–368, 1975, (H. Knops).
- (51) *Lectures on the billiard*, in "Lecture notes in Physics", vol. **38**, ed. J.Moser, Springer Verlag, 1975, pp. 236–295.
- (52) *Classical KMS condition and Tomita–Takesaki theory*, Communications in Mathematical Physics: **46**, 1–9, 1976, (M.Pulvirenti).
- (53) *Problemi ergodici in Meccanica Classica*, Quaderni del Consiglio Nazionale delle Ricerche, redatti da S. Graffi, Bologna, 1976, pp.1–81. E *Problèmes ergoifques de la Meécanique classique*, Laboratoire de Physique théorique, Ecole polytechnique fédérale de Lausanne, 1976, redatti da M. Robert.
- (54) *Stability and equilibrium states of infinite classical systems*, Communications in Mathemat-ical Physics: **48**, 1–14, 1976. (M. Aizenman, J. Lebowitz, S.Goldstein).
- (55) *Operatore di Liouville e soluzioni statistiche delle equazioni di Hamilton*, Annali di Matem-atica pura e applicata, **108**, 227– 238, 1976.
- (56) *Classical KMS condition and Tomita–Takesaki theory*, in Asterisque, vol. **40**, Societè Math-ématique de France, 1976, pp. 89–94.
- (57) *Alcuni problemi ed idee della teoria ergodica*, Bollettino Unione Matematica Italiana: **13A**, 534–544, 1976.
- (58) *Probabilistic aspects of critical fluctuations*, in Lecture notes in Physics, vol. **54**, ed. J.Brey–R.B. Jones, Springer– Verlag, 1976, pp. 250–273.
- (59) *Bernoulli schemes and their isomorphisms*, in Proceedings of the International School in Mathematical Physics, ed. Istituto di Matematica dell’Università di Camerino, Camerino, 1976, pp. 38–58.
- (60) *Funzioni zeta ed insiemi basilari*, Rendiconti dell’Accademia Nazionale dei Lincei: **51**, 509–517, 1977.
- (61) *Some aspects of the renormalization problems in Statistical Mechanics and field theory*, Mem-orie dell’ Accademia Nazionale dei Lincei: **15**, 23–59, 1978.
- (62) *A comment on the talk by E. Seiler*, in Mathematical Problems in Theoretical Physics, ed. G. Dell’Antonio, S. Doplicher, G. Jona–Lasinio, Lecture notes in Physics, Springer–Verlag, **80**, p. 436–438, 1978, (F. Guerra, S. Miracle–Solé).
- (63) *On the ultraviolet stability in Statistical Mechanics and field theory*, Annali di Matematica pura ed applicata: (IV), vol. **CXX**, 1–23, 1979.

- (64) *Some probabilistic techniques in field theory*, Communications in Mathematical Physics: **59**, 143–166, 1978. (G.Benfatto, M.Cassandro, F.Nicolò, E.Olivieri, E.Presutti, E.Scacciattelli).
- (65) *The exponential interaction in R^d* , Physics Letters, **83B**, 177–178, 1979. (S. Albeverio, R.Höeg–Khron).
- (66) *Some results for the exponential interaction in two or more dimensions*, Communications in Mathematical Physics: **70**, 187–193, 1979. (S. Albeverio R.Hoeg–Khron).
- (67) *Elliptic equations and gaussian processes*, Journal of Functional Analysis, **36**, 343–400, 1980, (G.Benfatto, F.Nicolò).
- (68) *Ultraviolet stability in Euclidean Field Theories*, Communications in Mathematical Physics, **71**, 95–130, 1980, (G.Benfatto, M.Cassandro, F.Nicolò, E.Olivieri, E.Presutti, E.Scacciattelli).
- (69) *The stability problem in scalar field theories*, ed. L.Streit, p.408–444, Springer-Verlag, Wien-New York, 1980.
- (70) *Meccanica Elementare*, ed. P.Boringhieri, p. 1–501, Torino, 1980.
- (71) *On the massive Sine–Gordon equation in the first few regions of collapse*, Communications in Mathematical Physics, **83**, 382–410, 1982, (G.Benfatto, F.Nicolò).
- (72) *Some problems in hamiltonian Perturbation Theory*, Rendiconti del Seminario Matematico dell’Università e del Politecnico di Torino, **1**, 107–118, 1982.
- (73) *Quelques remarques sur la non existence des integrales uniformes pour les systemes hamiltoniens quasi integrables*, G.M.E.L.,”Actualites Mathematiques, Actes du 6me congres des mathematiciens de langue latine, Gauthiers–Villars ,Paris, 1982, pp.153–166, ed. P.Pier.
- (74) *Elliptic operators and gaussian processes*, in Colloques internationaux du Centre National de la Recherche scientifique, no. **307**, (Saint Flour, 22–29 juin 1980), p.349–360.
- (75) *Aspetti della Teoria Ergodica Qualitativa e Statistica del Moto*, Quaderno U.M.I., no. **21**, ed. Pitagora, Bologna, 1982, p.1–300.
- (76) *Smooth prime integrals in quasi integrable systems*, Il Nuovo Cimento, **67B**, 277–297, 1982, (L. Chierchia).
- (77) *A criterion of integrability for perturbed harmonic oscillators. Wick ordering in Classical Mechanics*, Communications in Mathematical Physics, **87**, 365–383, 1982.
- (78) *The Dirichlet problem and the Perron–Frobenius theorem*, Bollettino Unione Matematica Italiana, (6), **1B**, 1029–1038, 1982.
- (79) *A comment on φ^4 euclidean field theory*, Physics Letters, **122B**, 265–270, 1983, (V. Rivasseau).
- (80) *The Elements of Mechanics*, Springer–Verlag, p.1–575, New York, 1983.
- (81) *Perturbation Theory for Classical Hamiltonian Systems*, in ”Scaling and self similarity in Physics”, ed. J. Fröhlich, Birkhauser, Boston, 1985, p.359–426.
- (82) *The integrability problem and the Hamilton–Jacobi equation. A Review*, Physics Reports, **103**, 177–184, 1984.
- (83) *Classical Mechanics and Renormalization Group*, in ”Regular and chaotic motions in Dynamic Systems”, ed. G.Velo, A.Wightman, Proceedings of the fifth international School of Mathematical Physics at Erice, 1983, Plenum Press, New York, 1985, p. 185–232.
- (84) *Perturbations of geodesic flows on surfaces of constant negative curvature and their mixing properties*, Communications in Mathematical Physics, **95**, 61–112, 1984, (P. Collet, H. Epstein).
